Subject Name/Code	Communication Skills (UHUL 101)
Roll No.	C70 Name: Surayam Torode
Registration Number	2020 AIFT 1101047

(Q3 a) Body Language is an important aspect for every individual. It is a way of communication but it is not a verbal communication. It is a part of non-verbal communication. It is a combination of movements, gestures and postures. Most of the people think that body language is the only way which we use to represent ourselves on the stage but that is not the only case. Body language is used everywhere when we talk. It tells us how confident we are when we talk to the people. Using appropriate body language with the words which you are speaking tells others that how confident you are. You can say that wrong body language makes your talk almost unsuccessful irrespective of how good and fluent a speaker you are. Good body language means you are paying attention to different elements such as you know how to move, where to look, where to stand and what gestures to make, making a proper eye contact with the people or crowd. What message you want to convey with the use of your hand and facial expression, are you feeling sad, bad, good or guilty.

When we have a good body language we make good first impression with the crowd. This gives the people an impression that the speaker is confident.

Q4 a) It is an formal gathering.

- 1) You are visiting an open exhibition of famous artist, who is an famous personality and has more fans of his art and drawing, you don't know the artist personally you can't act friendly with him you will obviously show some respect towards him.
- 2) There will be a lot of celebrities coming so again you don't know them and you can't act informally over there however you are going there with your friends you will have to behave formally over there because lot of famous personality will be coming and you don't want to give an wrong impression about yourself to other.

Since it is an formal gathering I will be dressing myself formally with basic combination of clothes which looks formal like Black shirt and black trousers with dark brown belt ~~with~~ matching with my shoes. This was about dressing now I will behave sweetly with other giving a gentle handshake and maintaining good body language. Though handshake is not recommended in this pandemic but it looks lot of formal fashion but if not handshake then Namask with some greetings.

I will maintain proper eye contact with every personality I meet, Try to portray myself a confident personality.

Q5 a.) Recently an ODI was played IND VS SL which was 2nd ODI in which India was chasing 276, India were down and out at 193 for seven before Chahar and Bhuvneshwar Kumar batted so well that an unbeaten 84-run stand to seal a memorable win who extended their record of not losing an ODI on Sri Lanka soil since 2012. This is not interesting at all the main factor is Deepak Chahar who is an bowler of Indian Cricket team whose highest score before this game was 12 showed remarkable resolve and composure under pressure to take his team over the line with five balls left. Being an bowler it was mostly impossible for Chahar to get Indian team winning the series with 2-0 though 1 match is left. Deepak Chahar wins hearts of Indian Cricket fans with brilliant performance. But a lot of questions are also being asked to the batsmen of the team. Hopefully Indian Cricket team overcomes this situation. So this was an recent important subject in sports which is garnering the interest of people in field of Cricket. Lot of fans of Cricket are happy with the performance of the Indian Cricket Team in the last match. A lot of trolls are also been asking about the Virat Kohli's Captaincy because in this match Shikhar Dhawan was Captain and as a captain Indian leads by 2-0.
